CHURCH OF GOD INTERNATIONAL HEADQUARTERS

Cleveland, Tennessee

The Church of God International Headquarters is located at the corner of 25th Street and Keith Street. For many years, the main headquarters building featured a large front lawn extending to Keith Street. With the need for additional office and conference facilities, two new buildings have been added in the front lawn and an exterior renovation of the existing building have been completed.

To compliment the new buildings' use of brick and cast stone, the existing building received a new exterior facade to develop a cohesive image for the campus.

Located on the first floor of the Church Ministries Building are office and conference spaces for Lay Ministry, Women's Ministry, the International President, and the Music Ministry. The Ministries Production Center, Control Room, Studio Overdub Room, and additional support spaces are also located on the lower level.

The upper level is designated for Youth Missions, YCE, financial, and other coordinators/ executive committee members' office suites.

Tri-Con, Inc.

The Executive Conference Building is home to the headquarter's largest conference room with a built-in catering kitchen on one side of the central lobby. The opposite side of the lower level provides a video conference studio, a smaller conference room, a production room, library, and various offices.

Surrounding the production areas are the offices for the production coordinator, the internet ministry coordinator, the communications coordinator, the media coordinator and the director.

The second level features the Executive Council Room, a translation/sound room, a dining area, the General Overseer, and assistants' offices, the legal department, the publication liaison, the copy editor, conference areas, and various support spaces.

Anticipating future growth, this facility also includes numerous spaces that may accommodate additional offices, small conference areas, etc.
